PROFESSIONAL SUMMARY

Dynamic **Electronics & Telecommunication Undergraduate** with **hands-on experience at BSNL**, where I learned about laser cutting, troubleshooting, CNC machining, and telecom operations. Skilled in software development with proficiency in **C, C++, Python, SQL, Power BI**, and hardware tools like **Raspberry Pi, MATLAB, and Arduino**. Ability to think critically and creatively to solve technical challenges, adept at translating technical proficiency into innovative solutions by combining both telecom and software domains.

EDUCATION

- **St. Vincent Palloti College of Engineering and Technology (2020-2026)** B. TECH | Electronics & Telecommunication Engineering | CGPA: 7.94/ 10
- **Shri Mathuradas Mohota College of Science, Nagpur (2022)** HSC | MSBSHSE | Percentage: 73.67 / 100
- **Bhagwati Girls High School, Nagpur (2020)** SSC | MSBSHSE | Percentage: 89.60 / 100

INTERSHIPS

Bharat Sanchar Nigam Limited (BSNL)

- Gained hands-on exposure to **Telecom Operations**, including **FTTH, NIB, transmission systems, and sales & marketing activities**.
- Assisted in the **installation, monitoring, and troubleshooting** of broadband and optical fiber networks.
- Gained basic exposure to **CNC machining** for **precision fabrication of mechanical components**.
- Learned the application of **laser cutting techniques** for accurate cutting and fabrication of metal parts.

PROJECTS

Vehicle Theft Detection System and Anti-Locking System

- Smart Vehicle Theft Detection and Anti-Locking System integrates biometric (fingerprint), GSM-based SMS control, and GPS tracking to ensure secure and intelligent vehicle access.
- A unique feature is Smart Engine Shutdown Logic, which ensures the engine is only turned off remotely when the vehicle is at a safe speed, preventing accidents during emergency interventions.

SKILLS

- Technical Skills: **IoT, Robotics, Laser Cutting, Electronics, Python, SQL, C, C++, HTML, CSS**
- Data Handling: Excel, Pandas, NumPy, Matplotlib, SciPy, Arduino, Raspberry Pi
- Learning and Interest: Embedded Systems, Cloud (AWS, Azure), Machine Learning
- Soft Skills: Problem-solving, Communication, Critical Thinking, Leadership, Adaptability

CERTIFICATIONS

- Plasmid certificate of Industry Training
- Industrial approach in Electronics
- NPTEL certification of Introduction to Internet of Things
- Python, C, C++ (Disha Institute)
- HTML, CSS, JavaScript (Great Learning)

ACHIEVEMENTS

- Event Organizer at UBA Committee
- 1st prize in Treasure Hunt competition at college fest
